

## Year 1 Holiday Homework

It is very important that you keep practising your basic reading, writing and number skills during the holidays. Here is a list of the things I would like you to do:

- Lots of reading- choose your own books, visit the library to try their holiday reading challenge, share books with your family.
- Practise letter sounds, make sure you know all the sounds of the single alphabet letters and go over any friendly letters that you know.
- Practise writing- make sure you start each letter in the right place and get it the right way round (we don't want any letters back to front). Hold your pencil properly and sit correctly when you write.
- Try writing a sentence (or two) about the special things you do in the holidays. Bring this to show us when we go back to school. A picture to go with it would be great.
- Practise numbers- counting, ordering, writing numbers correctly.

One of our first topics will be looking at the seasons, so if you are out and about please look for signs of summer and later in the holiday signs of autumn.

Helpful websites:

My maths- Lots of games and activities for all aspects of number work.
